

The Home Economics Department took 34 Year 9 students to the Balmoral show on Wednesday 16<sup>th</sup> May. We were keen to improve their knowledge of the wealth of opportunities and possible careers in the food and agriculture industry in Northern Ireland. We all had a wonderful day.

This is what the students had to say....

*“The Balmoral Show was great fun. We got to try different samples from different foods from all across Ireland. The horse show was very impressive and seeing the agricultural stands was very interesting. The people at the stalls were really friendly and the food was really good. My favourite part was seeing the people doing stunts on the motorbikes.”*
