3. Data Protection Principles

3.1 GDPR sets out the following principles with which any party handling Personal Information must comply. All Personal Information must be:

- 3.1.1** processed lawfully, fairly and in a transparent manner;
- 3.1.2** collected for specified, explicit and legitimate purposes only, and will not be further processed in a manner that is incompatible with those purposes; further processing for archiving purposes in the public interest, scientific or historical research purposes or statistical purposes shall not be considered to be incompatible with the initial purposes;
- 3.1.3** adequate, relevant and limited to what is necessary in relation to the purposes for which it is processed;
- 3.1.4** accurate and, where necessary, kept up to date, with reasonable steps taken to ensure that inaccurate Personal Information is deleted or corrected without delay;
- 3.1.5** kept in a form which permits identification of individuals for no longer than is necessary for the purposes for which the information is processed; Personal Information may be stored for longer periods insofar as the data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes, subject to the implementation of the appropriate technical and organisational measures required by GDPR in order to safeguard the rights and freedoms of the individual; and
- 3.1.6** processed in a manner that ensures appropriate security of the Personal Information, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.

❖ **Consent:**

- the individual has given his/her express agreement to the processing of his/her Personal Information for one or more specific purposes;
- parental consent will be obtained for any child aged under 13 years old or for children aged over 13 who are not considered capable of giving consent themselves.

4.1.2 except where the processing is based on consent, satisfy ourselves that the processing is necessary for the purpose of the relevant lawful basis (i.e. that there is no other reasonable way to achieve that purpose);

4.1.3 document our decision as to which lawful basis applies to help demonstrate our compliance with the data protection principles;

4.1.4 include information about both the purposes of the processing and the lawful basis for it in our relevant Privacy Notices;

4.1.5 where Special Category Data is processed, identify a lawful special condition for processing that information and document it; and

4.1.6 where criminal offence information is processed, identify a lawful condition for processing that information and document it.

- The College is required to respond to a Subject Access Request within one month of receipt but this can be extended by up to two months in the case of complex and/or numerous requests and, in such cases, the individual will be informed of the need for such extension. The College does not charge a fee for the handling of a straightforward Subject Access Request.

6.2 The Data Protection Officer is required to have an appropriate level of knowledge.

7. Privacy by Design

7.1 The College has adopted the principle of privacy by design and will ensure that the definition and planning of all new or significantly changed systems that collect or process Personal Information will be subject to due consideration of privacy issues, including the completion of one or more data protection impact assessments.

7.2 The data protection impact assessment will include:

7.2.1 Consideration of how Personal Information will be processed and for what purposes;

- 7.2.2 Assessment of whether the proposed processing of Personal Information is both necessary and proportionate to the purpose(s);
- 7.2.3 Assessment of the risks to individuals in processing the Personal Information;
- 7.2.4 What controls are necessary to address the identified risks and demonstrate compliance with legislation.

7.3 A data protection impact assessment is conducted by the Principal:

- 7.3.1 On every business process periodically, at least once a year, and more frequently where the amount and/or sensitivity of Personal Information processed dictates so;
- 7.3.2 As part of the project calendar admission requirements checklist;
- 7.3.3 At every high-impact change, and/or at the request of the Data Protection Officer.

8. **Data Retention and Disposal**

- 8.1 The longer that Personal Information is retained, the higher the likelihood of accidental disclosure, loss, theft and/or information growing stale.
- 8.2 Any Personal Information kept by the College is managed in accordance with the Department of Education Disposal of Records Schedule.

9. **Data Breach**

- 9.1 A data breach is any (potential) unintended loss of control over or loss of Personal Information within the College's environment. Preventing a data breach is the responsibility of all College staff and its workforce.

10. **Third-Party Services and Subcontracting**

- 10.1 The College may decide to contract with a third party for the collection, storage or processing of data, including Personal Information.
- 10.2 If the College decides to appoint a third party for the processing of Personal Information, this must be regulated in a written agreement in which the rights and duties of the College and of the subcontractor are specified. A subcontractor shall be selected that will guarantee the technological and organisational security measures required in this Policy and provide sufficient guarantees with respect to the protection of the personal rights and the exercise of those rights.
- 10.3 The subcontractor is contractually obligated to process Personal Information only within the scope of the contract and the directions issued by the College.

11. **International Transfers of Data**

- 11.1 Under GDPR, transfers of personal data to countries outside the UK are restricted to ensure that the level of data protection afforded to individuals by GDPR is not undermined. Personal Data is transferred out of the UK if it is transmitted, sent, viewed or accessed in a different country.

11.2 Any transfers of Personal Information outside the UK will be carefully reviewed before any transfer takes place to ensure they fall within the limits imposed by the GDPR. This depends partly on the European Commission’s judgement as to the adequacy of the safeguards for personal data applicable in the receiving country and this may change over time.
